Robbing Yourself

That is just what you are doing when you fail to get regular and sufficient sleep. Your body requires this unconscious period for repair work; without it your nerve energy becomes exhausted, and you are tired, worn-out, nervous, excitable; have headache, neuralgia, indigestion, poor appetite, or other ailments caused by a lack of nerve force. Make it your business to sleep. If you are restless, take Dr. Miles' Nervine; it soothes and strengthens the nerves, and brings sweet, refreshing, life-giving sleep, and gives the organs power to work natur-

ally. Try it to-day. "I had a severe spell of fever, which left me in a very weak condition and very norvous. I had severe spells of headache and neuralgia, and could sleep but very little. Every effort that was made to recover my strength was of no avail until I began taiding Dr. Alites' Restorative Nervine. After I commenced to take the Nervine my sleep was profound and restrai, and the pains in my head, as well as the neuralgia pains, left me to a certain extent and I grew gradually better."

Heavens, how I loved that girl! I lost my appetite and my sleep over it, and the doctor who was summoned looked at my tongue and sagely shook his head and said that I was going into a decline. Being older and more of her, Susan didn't have it quite so bad, but It was binted throughout the school that she was eating chalk to make her

look pale. At the beginning of winter a man who called himself Professor Swift came along and opened a writing and singing school combined. Susan and I

were among his pupils. The seed of jenlousy was planted in my breast. I was forced to observe that the professor was flirting with the idol of my heart. As we walked home together I charged her with it, and she made ludignant denial. I simply called her false and told her to go to grass, and when she sank down in a snowdrift and pretended to faint away I walked on and left her to get frostbitten toes. The next night the professor

escorted her home. After three or four days I thought Susan showed signs of relenting and though the professor went home with her from the school I tagged along after, in hopes she might speak to me. She didn't, however, but when the writing master left her on the doorstop I saw him deliberately kiss her. thought she also kissed in return, and I was so furious that the white snow

looked red to me. Harpersville was a penceful, quiet village. Tramps and crime were unknown. One night a householder was robbed of \$100 in cash. The next night the professor, who was boarding with a widow, was rebbed of \$25, or claimed to have been. Then followed the robbery of two stores and two other houses and, following them, that of the

The Great Tonic For Old People

This Grand Blood and Flesh Maker, Brain and Nerve Tonic, Keeps You From Growing Old and Adds Years to Life by Keeping Up Your Vital Forces.

When the human machinery begins to wear out, people grow old and go into decline and decay, the blood becomes thin and watery, the circulation poor, and the nerve forces shattered and weak, showing that certain essential elements of life are being exhausted from the blood and nerves. The exhaustion usually begins with cold and numb hands and feet. The stomach, bowels and bladder lose their power, often becoming partially, if not wholly. paralyzed. You grow weak and feeble and your vital forces so low that you begin to see that your health is being undermined. Dr. Chase's Blood and Nerve Food increases the action of the heart and the circulation of the blood, and builds up the system by replacing the same substances to the blood and nerves that have been worn out.
